Reliability Engineering and System Safety **42** (1993) 371–372

Contents of Volume 42

Number 1

Special Issue on The Reliability of Water Distribution Systems
Guest Editors: Y.Y. Haimes & D. Li

1 Guest Editorial

5 Incorporating Reliability in Optimal Design of Water Distribution Networks—Review and New Concepts
A. OSTFELD & U. SHAMIR (Israel)

13 Practical Aspects of Providing Reliability in Water Distribution Systems
T. M. WALSKI (USA)

21 Water Distribution Valve Topology for Reliability Analysis
T. M. WALSKI (USA)

29 Capacity Reliability of Water Distribution Networks
D. LI, T. DOLEZAL & Y. Y. HAIMES (USA)

39 Capacity-Weighted Water Distribution System Reliability
S-J. WU (Taiwan), J-H. YOON (South Korea) & R. G. QUIMPO (USA)

47 Reliability Analysis of Water Supply Systems integrating with Treatment Plant Operations
O. FUJIWARA & H-J. CHEN (Thailand)

55 Essential Considerations in the Computer Control of Water Distribution Systems
B. COULBECK (UK) & C. H. ORR (USA)

65 Editorial

67 Some Approximations Useful to the Use of Dependent Information Sources
S. CHHIBBER & G. APOSTOLAKIS (USA)

87 A Component Behavioural Model for Automatic Fault Tree Construction
J. D. WANG & T. S. LIU (Taiwan)

101 Calendar

Numbers 2-3

103 Guest Editorial
E. J. BONANO (USA) & B. G. J. THOMPSON (UK)

111 Consideration of Uncertainty in the Performance Assessment of Radioactive Waste Disposal from an International Regulatory Perspective
D. P. GALLEGOS & E. J. BONANO (USA)

125 The Development and Application of Integrated Procedures for Post-Closure Assessment, Based Upon Monte Carlo Simulation: The Probabilistic Systems Assessment (PSA) Approach
B. G. J. THOMPSON (UK) & B. SAGAR (USA)

161 The Use of Expert Opinion in Formulating Conceptual Models of Underground Disposal Systems and the Treatment of Associated Bias
M. C. THORNE (UK)

Reliability Engineering and System Safety (**43**) (1993)—© 1993 Elsevier Science Publishers Ltd, England.

181 The Treatment of Climate-Driven Environmental Change and Associated Uncertainty in Post-Closure Assessments
R. D. WILMOT (UK)

201 A Discussion on Validation of Hydrogeological Models
J. CARRERA, S. F. MOUSAVI, E. J. USUNOFF, X. SÁNCHEZ-VILA & G. GALARZA (Spain)

217 Biosphere Models in Radioactive Waste Disposal Assessment
G. JOHANSSON & C. HÄGG (Sweden)

233 The Role of Natural Analogues in Nuclear Waste Repository Performance Assessment with Particular Emphasis on Experience in Switzerland
I. G. MCKINLEY (Switzerland)

247 Model Validation: A Systemic and Systematic Approach
G. SHENG (Canada), M. S. ELZAS (Netherlands), T. I. ÖREN (Canada) & B. T. CRONHJORT (Sweden)

261 Towards Verification of Computer Codes for the Performance Assessment of Radioactive Waste Disposal
A. NIES (Germany)

271 Deriving Parameter Probability Density Functions
M. E. STEPHENS, B. W. GOODWIN & T. H. ANDRES (Canada)

293 Spatial Variability in Subsurface Flow and Transport : A Review
A. L. GUTJAHR & R. L. BRAS (USA)

317 A Statistical Model of Possible Future Human Actions
G. WOO (UK)

327 Uncertainty and Sensitivity Analysis Techniques for use in Performance Assessment for Radioactive Waste Disposal
J. C. HELTON (USA)

369 Calendar
